

THANKS FOR YOUR PURCHASING.
WE HOPE YOU ENJOY IT.

INSIDE:

1.Shelf

2.Screws and dowels

2.Wollen bandages

TOOLS NEEDED TO INSTAL:

- Screw Gun / Drill
- Auger 8 mm diametr
 - Screwdriver
 - Level
- Pencil/marker

INSTRUCTIONS

1. Find a best place for the rack, use level and mark points for holes on the wall.
2. Drill holes and put dowels inside.
3. Stick woolen bandages on shelf cutouts to protect the bike frame.
4. Attach the shelf to the wall and tighten the screws
5. Enjoy your new stuff

NOTE

You can mount shelf on drywall also if you know how it to do. You can buy special anchors for mounting at a local hardware store. But we are not responsible for the result, because the wall materials can be different and mounting requires special care.

IMPORTAND

Twonee disclaims all liability for damage or injury resulting from the improper installation or use of items to the fullest extent permitted by law. Weight limit for hanging bike is 18 kg (39lbs). Do not ever sit on, stand on, or hang from shelf.
